## PROFESSIONAL SUMMARY

Motivated and detail oriented Computer Science student seeking opportunities to apply and expand my skills in development. I aim to contribute to impactful projects, learn from real industry challenges, and grow into a versatile developer who builds efficient, user-focused solutions.

## TECHNICAL SKILLS

|                       |                                                                       |
|-----------------------|-----------------------------------------------------------------------|
| Programming Languages | JavaScript, Java, SQL                                                 |
| Frontend              | HTML5, CSS3, React.js, Tailwind CSS, Responsive Web Design            |
| Backend               | Node.js, Express.js, REST APIs, JWT Authentication                    |
| Database              | MongoDB                                                               |
| Core Computer Science | Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS |
| Tools & Platforms     | Git, GitHub, VS Code, Postman                                         |

## EXPERIENCE

### Placemantra | Remote

#### Web Development Intern – Frontend Developer | July 2025

- Collaborating with a team to develop a Smart India Hackathon project focused on a Civic Issue Reporting and Resolution System.
- Building responsive frontend interfaces and improving user experience using React.js and modern UI practices.
- Working with Git and GitHub for version control, collaboration, and project management.

## PROJECTS

### Personal Portfolio Website

<https://github.com/sripriyaassit/portfoli>

- Developed a responsive personal portfolio website showcasing projects, technical skills, and achievements.
- Implemented dark/light mode functionality and optimized UI for accessibility and responsiveness.
- Created a clean professional interface to establish a strong online developer presence.

### Smart India Hackathon Project (SIH)

<https://github.com/sripriyaassit/Sih>

- Contributed to a civic issue reporting and resolution platform designed for real-world problem solving.

- Worked on frontend development, responsive interfaces, and user interaction features.
- Focused on scalability, usability, and collaborative development practices.

### **AI Resume Score Project** <https://github.com/sripriyaassit/AI-RESUME-SCORE-PROJECT>

- Built an AI-powered resume analysis platform for resume evaluation and scoring.
- Implemented frontend-backend integration and interactive result visualization.
- Applied modern full-stack development concepts to improve user experience and performance.

### **VS Code Text Color Extension** <https://github.com/sripriyaassit/vs-code-text-color>

- Developed a Visual Studio Code extension for customizing text color visibility inside the editor.
- Enhanced coding experience and editor personalization for developers.
- Gained practical experience in extension development and VS Code tooling.

### **Food Delivery Web Application** <https://github.com/sripriyaassit/Food-Delivery>

- Created a responsive food delivery web application with interactive UI components.
- Implemented menu display, navigation, and seamless user experience features.
- Focused on responsive performance and modern frontend design practices.

## **EDUCATION**

### **Budge Budge Institute of Technology, Kolkata**

Bachelor of Technology (B.Tech) – Computer Science and Engineering | 2023 – Present

### **Mashrak College, Bihar**

Higher Secondary Education (Science – BSEB Board) | 82%

### **ACME Public School, Bihar**

Secondary Education (10th) | 84%

## **ACHIEVEMENTS**

- School Topper – Class 10th.
- Received Letter of Recommendation from Placemantra.
- Developed multiple real-world full-stack and frontend web applications using MERN technologies.
